BLASTRAC

BMP-335GHY SCARIFIER

A DIESEL POWERED WALK-BEHIND SCARIFIER

The Blastrac BMP-335GHY is the Diesel version of the BMP-335EHY. The BMP-335GHY is the answer to the largest scarifying applications. It's increased weight allows it to generate more efficient scarifying action. With variable speed, forward and reverse, this heavy-weight performer can be driven without the scarifying drum engaged. The BMP-335GHY is equipped as standard with an electrical start to make operators' life easier.

The BMP-335GHY scarifier is almost dust free when connected to the appropriate Blastrac dust collection system. Blastrac has designed a full range of scarifiers and cutters, which give the opportunity to process any floor and specific application.

	335 mm
kg	370 kg excl. drum
L B H	1.400 mm | 605 mm | 1.075 mm
	1.000 rpm
	Up to 150 m²/h on concrete | Hydraulic / 0 - 18 m/min
	7,5 kW | Diesel
	Forward (Hydraulically Driven)
Ø	Ø76 mm
	96 dB(A)
	6,9 m/s²
	Concrete | Stone | Asphalt

HYDRAULICALLY DRIVEN

With variable speed, forward and reverse, this heavy-weight scarifier can be driven without the scarifying drum engaged.

CENTRED DOWN FORCE

The weight of the machine is centered in order to create a maximum down force on the rotating drum.

PRECISE HEIGHT ADJUSTMENT

The working depth of the drum with the milling tools is easily adjustable, this means no underground deterioration.

Quick lifting / lowering of the milling drum mechanism.

LATERAL DRUM LOADING

The BMP-335GHY is especially designed so that the drum can be taken out of the machine, from the side without having to move the machine.

DUST HOSE CONNECTION

Dust hose connection Ø76 mm for a dust free jobsite.

DIESEL POWERED

The Diesel motor allows the operator to work anywhere at any time. It is ideal for outdoor jobsites as you don't need any electrical power.
